SAN ANTONIO, TEXAS,

April 16, 1896

My Dear Miss Hartzell -

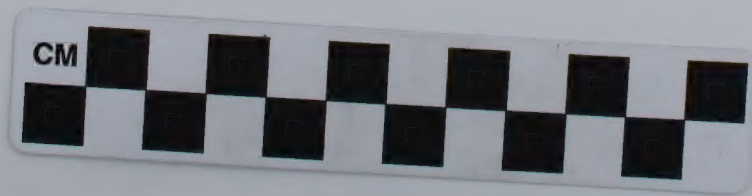

I saw in receipt of your recent letter and am very glad indeed to know of your sister's improved health. I have been thinking too of the portion of your letter referring to your coming to San Antonio - for which I should be glad to have a representative of the Pittsburgh Training School here. I feel that I ought to tell you of the changes

CM

in plans etc that have taken
place since I wrote you last -
Miss Meredith has concluded to
remain here for another year
and a Miss Taylor - a graduate
from a London School has also
come here so that the outlook
for you now is not so favorable
as I thought it two or three
weeks ago - I am very sorry
about it and especially so if you
have made any positive arrangements
But I thought I ought to tell you
at once as I judge from your
letter that you would depend on
your earnings after you got here.

Our summers are so healthy
and so many visitors go home for
these months that work is pretty
light during the hot weather - If
however you have any occasions
to come later - either on or off

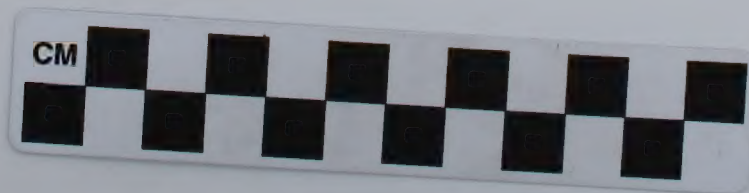

CHARLES A WILSON, M. D.

SAN ANTONIO, TEXAS,

sisters account or any other I shall take pleasure
in doing anything for you that I can - Now as to
work for "a young man" - that is worse yet - So many
come here in just that way - willing to work for
half pay for the sake of the climate - that I
am afraid he would have trouble in securing
employment - I should hesitate about recommending
it - Our summers though - while pretty long - are
not so hard to bear as the hot weather in the
north - The nights are cool always and we have a

fine breeze from the gulf that
can be depended on after the
middle of the afternoon -

Anything I saw as for
you at anytime will be a
treasure - I am

Truly Yours

James A. Wilson
